Testimonial

We are a trusted firm of accountants giving various accountancy solutions to small businesses. We provide a high standard of service and in return we expect the same high level of service from our suppliers.

After the office losing a whole day to IT issues, I felt that it was time to get some help managing our IT structure and having help on hand when I needed it. However, I didn't want to pay hundreds of pounds every month 'just in case'.

Code 56 have the ideal solution. I pay in advance for a number of hours. When I have used up all my hours, I pay for more. Simple!

Code 56 have been proactive with my system, going through everything and ensuring that it all works properly and is secure and I now feel more in control.

I would recommend the team at Code 56 to anyone who wants peace of mind. Thank you.

Regards 
Lisa Clarkson
